

# SKILLS HORIZONS

MAY 8TH, 2024 - 10-12 CET

## AGENDA

### 10.00 – 10.15 WELCOME AND INTRODUCTION

*This opening session sets the stage for a day of inspiration, collaboration, and groundbreaking ideas.*

### 10.15 – 11.30 ELEVATOR PITCHES

*Dive into a rapid-fire showcase of cutting-edge skills projects, grouped into compelling thematic clusters. Each thematic group kicks off with a brief introduction, ensuring a rich context for the innovative ideas to follow.*

#### Link4Skills | Izabela Grabowska (PL)

*A global initiative tackling skill shortages by promoting re/upskilling, raising wages, automation, and migration strategies across four continents. It introduces the AI-Assisted Skill Navigator for better skill matching in the labor market.*

#### SKILLAB | Konstantinos Georgiou (CC)

*A project dedicated to addressing labor market skill shortages through an intelligent platform, offering HRM, education, and policy recommendations to support skill development and enterprise recruitment strategies.*

#### SkilMeeT | Ludvine Martin (LU)

*Focusing on European labor markets, this project explores solutions to skill shortages driven by the digital and green transition, using diverse data sources and stakeholder engagement to inform policy.*

#### SKILLS4JUSTICE | Vidmantas Tütlys (LT)

*Analyzing skill shortages in EU and non-EU countries to explore skills partnerships' potential. Aiming to develop a skilled worker recruitment model and a toolkit for sustainable skills partnerships.*

#### TECHNEQUALITY | Mark Levels (NL)

*Investigating the impact of technological advancements on labor markets, aiming to guide policy for equitable outcomes in education and employment amid changing skill requirements.*

#### TRAILS | Georgios Panos (GR)

*Identifies conditions for skill gaps in Europe, offering insights into skills matching and mobility in green and digital jobs through AI tools and diverse data methodologies.*

#### YOUNG\_ADULLLT | Sebastiano Benasso (IT)

*Aims to examine the compatibility and impact of European Lifelong Learning (LLL) policies on young adults by assessing their orientations, objectives, and unintended effects.*

#### CLEAR | Jozef Zelinka (DE)

*Aims to understand the various factors shaping learning outcomes, utilizing multi-level analyses across 8 EU countries. The research integrates dynamic concepts like Life Course and Spatial Justice, adopting an innovative participatory approach.*

#### iRead4Skills | Raquel Amaro (PT)

*Targets reading skills gaps by developing an Intelligent Reading Improvement System, promoting literacy and enhancing fundamental and transversal skills.*

#### MEGASKILLS | Leire Bastida (ES)

*Focusing on developing and evaluating soft skills crucial for the workforce, employing AI and video game data to create training and assessment techniques.*

#### SKILLS2CAPABILITIES | Emily Erickson and Jörg Markowitsch (UK/AT)

*Aims to enhance skills systems for smooth labor market transitions, identifying necessary capabilities for future vocational education and training systems.*

#### GS4S | Colleen Boland (NL)

*Addresses EU's aging workforce and energy transition challenges by analyzing skills shortages, offering data-driven policy proposals and tools to support sustainable global strategies for skills, migration, and development.*

### 11.30 – 12.00 MEET THE PROJECT COORDINATOR

*Choose from more than 10 dedicated rooms to engage in meaningful conversations, explore project depths, and foster personal connections that could shape the future of our initiatives.*
